Claims 1-24 and 36-49 allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record neither teaches or suggests a medical system as claimed comprised of an ambulatory medical device(MD) with associated treatment, control and communications systems and a communication device(CD)with associated control and communications systems in combination with a protocol such that As amended, claim 1 recites that that a portion of the messages sent between the communication device and the medical device are directed to specific medical device, or a specific communication device, by inclusion of an MD identifier that identifies the medical device or a CD identifier that identifies the

None of the cited prior art references discloses or suggests a medical system in which specific MD or CD identifiers are included in some messages, while a universal identifier is included in further messages.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
